## DETAILED ACTION

### *Drawings*

1. Replacement drawings were received on 11 March 2008. These drawings are acceptable.

### *Claim Rejections - 35 USC § 102*

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claim 31 is rejected under 35 U.S.C. 102(b) as being anticipated by Garrett (5,152,196) or Griffiths (GB 2248572 A).

In Garrett, the top or upper portion of head 14 serves as the non-rotating centering element for the unitary drive-stud/drive transmitting wheel assembly 18. In Figure 3 of Griffiths, element 8 identifies the non-rotating centering element for the unitary drive-stud/drive transmitting wheel assembly.

### *Allowable Subject Matter*

4. Claims 1-30 are allowed.

### *Conclusion*

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Claim 31 (new) appears to be an amendment to claim 16 (previously amended), and as such, the limitation that the "one-way drive transmitting wheel separately formed from and non-removably connected to the drive-stud element" has required new consideration of the art of record as a whole. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of

time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
